CHALLENGES

Inspired by the desire to provide innovative and technologically advanced products and services to align the massive growth of the major turnkey related functions

APC embraces the power of excellence to fulfill needs of EPC contracting, Design and Engineering services.

APC provide the various engineering services provide integrated project solutions while still maintaining the competitiveness and high standard.

APC provide a comprehensive operation and maintenance solutions are delivered by a highly skilled team of professionals.

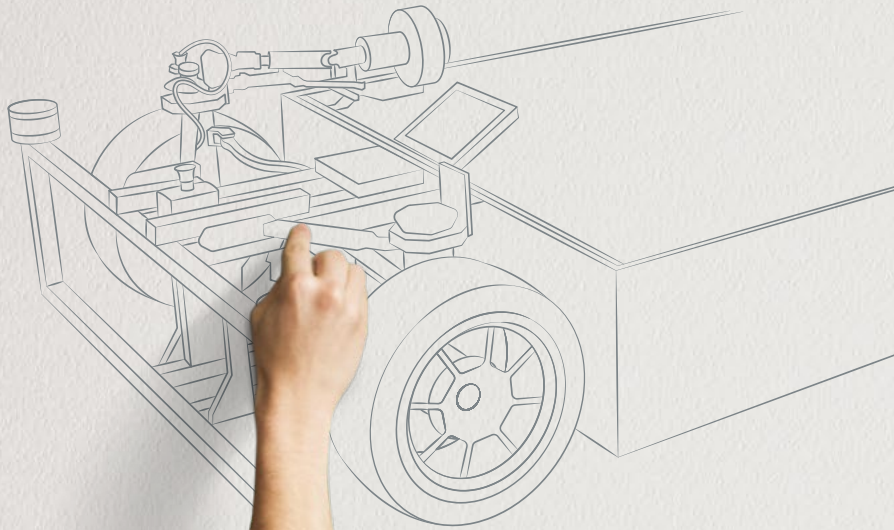

APC Working to be the Leading engineering and construction company provide high technique and quality turn key construction projects with various integrated activities.

APC committed to continuously form long term relationships of value and respect with our customers by providing a reliable and flexible high service and quality according to customer needs.

HOW IDEAS TURN

Even the most brilliant ideas are not guaranteed to turn into success. Ideas need people who believe in them and make them reality with unwavering determination.

STAFF

All APC staff, Starting from the commercial and managing departments, to out technicians has the prior objective of customer satisfaction. All your requests and inquires will be evaluated with highest availability, professionalism, rapidity and politeness.

Technical pre- and after-sales support available 365 days a year.

THINKING OUTSIDE THE BOX

Mini soccer tables, guitars or small sailboats, an ordinary shoe box can be converted into all kinds of exciting things. such a simple object as a cardboard box may even lay the foundation for successful

machines. Highly specialized technical staff available for designing new installations and solutions and even for technical training.

RISING TO THE CHALLENGE

IN TO SUCCESS

Quality services lead to satisfied customers and satisfied customers are one of our greatest assets. APC has never failed to meet a project deadline and we pride ourselves in going above and beyond for our customers. Our commitment to quality begins with the people that we employ and continues through to a project's completion. We work closely with general contractors, engineers, and owners to insure all phases of a project are completed to specification.

Health and Safety for the employees wherever they are.

It is part of our policy to do all that it takes to prevent personal damage to property, and to protect all employees from any type of expected work dangers. So we are responsible for maintaining a safe, healthy and accommodating workplace, while ensuring a high protection level and setting up a safety committee to deal with eventual emergencies which complying with legal requirements and international standards.
